

Funding opportunities in the life sciences

Webinar for Masters and PhD students, new PhDs and early career post docs in the life sciences.

Wednesday 26 February 2025

1100 – 1200 CET (Austria, Germany, Netherlands, Poland, Switzerland)

Register here: https://embo-org.zoom.us/webinar/register/WN_WYNxf9s0RVSYUVLI7IFtDA#/registration

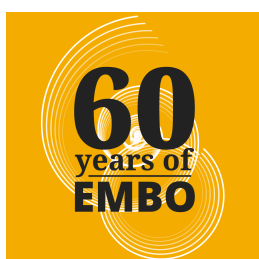

The session will include advice from a current Fellow, and information on the schemes and how to apply.

Why attend? EMBO is an international membership organization supported by 37 countries in Europe and beyond. We fund researchers and support conferences, training and networking activities to create an environment in which scientists can excel.

EMBO Postdoctoral Fellowships include a salary or stipend for a period up to two years. International mobility is a key requirement.

EMBO Scientific Exchange Grants cover travel and subsistence costs for exchanges of up to three months between laboratories in eligible countries.

EMBO Courses & Workshops stimulate exchange of the latest scientific knowledge and offer training in new techniques. They are organized by leading scientists in their fields.

The schemes and support offerings are funded with means from EMBC.
